

SKINTOP® CABLE BUSHING SYSTEM

The rapid growth of industrialization has given rise to a mounting demand of cables across Indian sectors. As manufacturing units are getting automated, there is a constant need for machines to be more interconnected, with use of multiple cables, especially in power, control and data applications. Proper organization and management of the numerous cables will ensure seamless maintenance of these interconnected cables. There is always a demand for harness and then reconfiguration of these harnessed cables which may involve hours of effort.

LAPP being the leading supplier of integrated solutions and branded products of wires and cables, introduces SKINTOP® CABLE BUSHING SYSTEM which turns chaos into order. SKINTOP® CABLE BUSHING SYSTEM allows cables of different diameter sizes to be fitted into a single platform safely and in an orderly manner. It simplifies cable management for various applications and helps save manpower hours and costs at every stage of the installation process. The newly introduced SKINTOP® CABLE BUSHING SYSTEM is faster, easier and better. It has user-friendly design with expandable modules which helps in quick assembly. Innovative gel technology

helps in effortless installation and offers a high degree of protection and long lasting safety. The product is available in 3 variants, SKINTOP® CUBE, SKINTOP® CUBE MULTI and SKINTOP® MULTI.

SKINTOP® CABLE BUSHING SYSTEM is an ideal solution for:

- Customised and non-customised cables and wires
- Demanding applications or extreme stress resulting from water, dirt, vibrations, thermic or chemical strains
- Control cabinets, underfloor installation and housing where there is little space to insert cables, wires and media hoses due to a high packing density
- Maintenance, service and reconfiguration of components that require quick and easy changing or removal of customisations
- Flexible modular systems in keeping with Industry 4.0
- International use in accordance with UL50, UL508A, UL50E and CSA C22. Enclosures for Electric Equipment/ Industrial Control Panels.

About the Lapp Group

Headquartered in Stuttgart, Germany, the Lapp Group is a leading supplier of

integrated solutions and branded products in the field of cable and connection technology. The Group's portfolio includes standard and highly flexible cables, industrial connectors and screw technology, customized system solutions, automation technology and robotics solutions for the intelligent factory of the future, as well as technical accessories. The Lapp Group's core market is in the industrial machinery and plant engineering sector. Other key markets are in the food industry as well as the energy and the mobility sector.

The Lapp Group has remained in continuous family ownership since it was founded in 1959. In the 2015/16 business year, it generated consolidated revenue of 901.5 million euros. Lapp currently employs approximately 3,440 people across the world, has 17 production sites and over 40 sales companies. It also works in cooperation with around 100 foreign representatives.
